RULING ON ENTITLEMENT¹

On February 23, 2021, John W. Vance filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barré Syndrome (GBS) after receiving the influenza vaccination on October 1 2019. Petition at 1. Petitioner further alleges that the vaccination was administered within the United States, his symptoms lasted for more than six months, and he has never received any compensation in the form of award or settlement for his vaccine-related injuries. Petition at 1, 4. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 25, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

1. Specifically, Respondent determined that “[P]etitioner has satisfied the criteria set forth in the Vaccine Injury Table (“Table”) and the Qualifications and Aids to Interpretation (“QAI”) for GBS following a flu vaccine.” *Id.* at 6. Respondent further agrees that the scope of damages is limited to Petitioner’s GBS and its related sequelae only. *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
